

All-Purpose & Liquid Products

All-Purpose Formula

Our all-purpose formula is designed for applications where more than 70% of solid medications are being disposed. Neutralization begins on contact and medications are deemed non-retrievable once adsorbed by Rx Destroyer's activated carbon. Our products are multi-use and are deemed full when contents reach within 2" from the bottle opening.

COMPATIBLE WITH OUR ALL-PURPOSE FORMULA:

Liquids, Pills & Capsules, Transdermal Patches, Powders, Creams, Suppositories, Fentanyl Lollipops, Lozenges

Liquid Formula

Our liquid formula is designed for the disposal of "liquids" and syringed medications with medications adsorbed and neutralized by activated charcoal. All products come with a hardening agent to solidify contents and meet the EPA's free liquid landfill test method. Once contents are within 2" from the bottle opening, simply add the hardening agent, agitate, and dispose.

COMPATIBLE WITH OUR LIQUID FORMULA:

Syrups, Injectables, Suspensions, Solutions, Elixirs

Accessory & Security Products

Funnels & Hardener

Rx Destroyer funnels are engineered to deliver maximum fill utilization, safe handling, and secure positioning. Designed to be as space-efficient and non-invasive as possible, our funnels make drug disposal a safe, accessible, and simple process anytime and anywhere. Rx Destroyer Hardener Packets help prevent potential messy liquid spills in the waste stream, and its unique dust-free formulation converts the disposed drugs and activated charcoal mix into a solid gel in minutes.

RXFUN

Compatible with:
All RXD bottles

RXFUN32

Compatible with:
RX4, RX16, RX64, RX1.0

RXFUN3263

Compatible with:
RX2.5

RXFUN3270

Compatible with:
RX5.0

RXHARD

Versions:
RX16HARD, RX64HARD,
RX1.0HARD, RX2.5HARD,
and RX5HARD

Wall Mounts & Lockboxes

Our range of bottle mounting accessories are designed for secure mounting and permanent placement of Rx Destroyer products; medical grade steel provides an enhanced level of security that removes potential for unauthorized removal and diversion.
