

# Drug Disposal Made Simple

**Rx Destroyer is a fast acting ready-to-use chemical digestion formula that begins neutralizing medications on contact, complying with the DEA Non-Retrieveable Standard 21 CFR and the EPA's 40 CFR.**

## Why Irretrievable Drug Disposal?

**Compliance.** The Drug Enforcement Administration (DEA) requires pharmaceutical waste to be deemed non-retrievable and unavailable for misuse. Additionally, the Environmental Protection Agency (EPA) has banned the flushing and draining of all medications.

**Protection.** Non-retrievable drug deactivation actively protects people, communities and the environment by eliminating risk of wrongful misuse or incorrect disposal.

## What makes Rx Destroyer different?

**Simplicity.** Comes 'ready to use' - no water to add, no batteries to change, no pouch to seal. Our multi-use deactivation products are simple and cost efficient.

*With regard to pharmaceutical waste disposal and other regulated activities associated with pharmaceuticals, always follow applicable federal, state, local, and tribal laws/regulations.*

## WHO NEEDS DRUG DISPOSAL?

CORRECTIONS

ORAL HEALTH

ANIMAL SERVICES

PUBLIC HEALTH

EDUCATION

EMERGENCY SERVICES

PHARMACY

LONG TERM CARE

GOVERNMENT

HOSPITALS

Meeting non-retrievable drug standards can be challenging for healthcare and non-medical facilities without product and process intervention. Integrating Rx Destroyer drug disposal systems into your existing pharmaceutical program is easy, cost effective, and simply the most comprehensive solution in preventing drug abuse, drug diversion, and stockpiling. Our bottles are ergonomic and space-optimizing, and our caps regulate pressure to allow the commingling of medications that produce off-gassing.

## Want to buy Rx Destroyer?

Rx Destroyer products ship same day.  
Drop-shipping and next-day shipment available.

# All-Purpose Formula

Our all-purpose formula is designed for applications where more than 70% of solid medications are being disposed. Neutralizing pills, tablets, lozenges, creams and powders on contact; medications are deemed non-retrievable once adsorbed by Rx Destroyer's activated carbon. Our products are multi-use and are deemed full when contents reach within 2" from the bottle opening.

COMPATIBLE WITH OUR ALL-PURPOSE FORMULA:

LIQUIDS

PILLS & CAPSULES

TRANSDERMAL PATCHES

POWDERS

CREAMS

SUPPOSITORIES

FENTANYL LOLLIPOPS

LOZENGES

## Liquid Formula

Our liquid product range is formulated for the disposal of "liquids" and syringed medications with medications adsorbed and neutralized by activated charcoal. All products come with a hardening agent to solidify contents and meet EPA's free liquid landfill test method. Once contents are within 2" from the bottle opening, simply add the hardening agent, agitate, and dispose.

COMPATIBLE WITH OUR LIQUID FORMULA:

SYRUPS

INJECTABLES

SUSPENSIONS

SOLUTIONS

ELIXIRS

No water required.  
Ready to use.
